CORE PRODUCT AND LEADERSHIP SKILLS

- **Product sense:** Deep obsessive curiosity about what users actually need, understanding friction before they articulate it, making instinctive calls rooted in real user context.
- **Strategy:** Clear positioning, intentional segmentation, and defensible differentiation. I help organizations understand who they serve, what makes them different, and why it matters.
- **AI:** Leveraging AI/ML to scale product insights, reduce friction, and create experiences that feel inevitable to users.
- **User and Experience:** Employee Experience (EX), Customer Experience (CX), Design Thinking, User Research, Journey Optimization
- **Leadership and Collaboration:** Executive Stakeholder Management, Cross-Functional Leadership, Mentorship, Decision Ownership
- **Agile and Delivery:** Agile at Scale (SAFe), Scrum, Lean Product Development, Risk and Dependency Management

CERTIFICATIONS

- **World-class Product Sense in Practice** – Maven (Instructed by Shreyas Doshi)
