CORE PRODUCT AND LEADERSHIP SKILLS

- **Product sense:** Deep obsessive curiosity about what users actually need, understanding friction before they articulate it, making instinctive calls rooted in real user context.
- **Strategy:** Clear positioning, intentional segmentation, and defensible differentiation. I help organizations understand who they serve, what makes them different, and why it matters.
- **AI:** Leveraging AI/ML to scale product insights, reduce friction, and create experiences that feel inevitable to users.
- **User and Experience:** Employee Experience (EX), Customer Experience (CX), Design Thinking, User Research, Journey Optimization
- **Leadership and Collaboration:** Executive Stakeholder Management, Cross-Functional Leadership, Mentorship, Decision Ownership
- **Agile and Delivery:** Agile at Scale (SAFe), Scrum, Lean Product Development, Risk and Dependency Management

- **Data**: BigQuery , Google Firebase, Adobe Analytics
- **Product and Agile**: Jira, Confluence, Figma, Balsamiq, Miro
- **Cloud and DevOps**: AWS, Azure, IBM Garage, Dynatrace, Splunk, Microservices

EDUCATION

Northern Illinois University, DeKalb, Illinois – B.S in Operations and Information Systems, December 2011

PROFESSIONAL EXPERIENCE

Employer: JP Morgan Chase **May, 2025 – Present**

VP Product, Omni Channel Employee Experience (Web, Mobile, AI Assist)

- Driving global onboarding product strategy supporting **50K+ annual hires**, leveraging AI-driven personalization to accelerate time-to-productivity and improve early-tenure retention.
- Leverage AI/ML and automation to reduce operational friction and deliver personalized, intuitive acclimation solutions for new hires and managers.
- Enhanced omni channel experience for employees to request, provide and act on performance feedback in a regular and intelligent way that supports individual growth and accountability.

Employer: Walmart Inc. **Apr, 2022 – May, 2025**

Principal Product Manager: Associate Experience – Stores and Supply Chain mobile app

- Led the end-to-end development of the Me@ Walmart Supply Chain mobile app, supporting **1.2M+ Daily Active Users (DAU)** and **122K+ supply chain associates to achieve an 80%+ adoption rate.**
- Integrated GenAI and ML models into the mobile experience to automate performance tracking and productivity analytics, significantly improving workforce efficiency and workflow optimization.
- Architected a Labor Management tool that automated weekly incentive payouts for distribution centers, projected to save **$15M–$20M per DC annually while eliminating 500K+ manual HR hours.**
- Engineered an AI-driven hiring and onboarding automation tool, reducing the time-to-offer from **2 weeks to 24 hours and decreasing candidate drop-off rates by 50%.**
- Modernized the recruitment funnel by implementing a 2-step hiring process and AI/ML candidate recommendation engines, resulting in a **90% offer acceptance rate within 24 hours.**
- Define product strategy, vision, and multi-year roadmaps for the Associate Experience portfolio, collaborating with cross-functional stakeholders to align Agile delivery with enterprise business goals.

Employer: IBM, Dallas, TX **Mar, 2021 – Apr, 2022**
